

Cagliari city tour - On the top of the city

A journey to some of the oldest places in Cagliari, at its highest point. We will visit the Castello district, discover its history and see some of its most iconic sites. The ramparts, the defensive towers and the Cathedral of Santa Maria are ready to be discovered on this guided tour in the city of the sun and the seven hills, just like Rome. From the highest point of Cagliari we will admire some of the most beautiful views of Cagliari

Cagliari city tour... from another point of view!

The second proposal focuses on the lower side of the city. Cagliari from another point of view! From the highest point to the closest point to the sea, in the Marina district, a picturesque quarter that preserves ancient memories. Through its narrow streets we will visit the most peculiar corners of the district, until we reach the harbor of Cagliari, which was in the past an important landing place.
